At Reliance, Corporate Governance is all about maintaining a valuable relationship and trust with all the stakeholders. At Reliance, we consider our stakeholders as our partners in our success and we remain committed to maximizing stakeholder value, be it shareholders, employees, suppliers, customers, investors, communities or policy makers. This emanates from our strong belief that sound governance system based on relationship and trust is integral to creating value on an overall basis. We have a defined policy framework for ethical conduct of businesses. We believe that any business conduct can be ethical only when it rests on the nine core values of Honesty, Integrity, Respect, Fairness, Purposefulness, Trust, Responsibility, Citizenship and Courage.

1. Statement on Company's philosophy on Code of Governance

Corporate Governance is a set of systems and practices to ensure that the affairs of the Company are being managed in a way which ensures accountability, transparency, fairness in all its transactions in the widest sense and meet its stakeholders' aspirations and societal expectations. Good governance practices stem from the culture and mindset of the organisation and at Reliance we are committed to meet the aspirations of all our stakeholders. This is demonstrated in shareholder returns, high credit ratings, governance processes and an entrepreneurial performance focused work environment. Our customers have benefited from high quality products delivered at the most competitive prices.

The essence of Corporate Governance lies in promoting and maintaining integrity, transparency and accountability in the higher echelons of management. The demands of corporate governance require professionals to raise their competency and capability levels to meet the expectations in managing the enterprise and its resources effectively with the highest standards of ethics. It has thus become crucial to foster and sustain a culture that integrates all components of good governance by carefully balancing

the complex inter-relationship among the board of directors, audit committee, accounting and corporate secretarial team, auditors and senior management - the CEO and CFO. At Reliance, our employee satisfaction is reflected in the stability of our senior management, low attrition across various levels and substantially higher productivity. Above all, we feel honoured to be an integral part of India's social development. Details of several such initiatives are available in the section on Corporate Social Responsibility.

At Reliance, it is our belief that as we move closer towards our aspirations of becoming a global corporation, our corporate governance standards must be globally benchmarked. This gives us the confidence of having put in the right building blocks for future growth and ensuring that we achieve our ambitions in a prudent and sustainable manner. Reliance not only adheres to the prescribed corporate governance practices as per Clause 49 but is also committed to sound corporate governance principles and practices and constantly strives to adopt emerging best practices being followed worldwide. It is our endeavor to achieve higher standards and provide oversight and guidance to management in strategy implementation, risk management and fulfilment of stated goals and objectives.
