Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. Significant Accounting Policies

A. Basis of Preparation of Financial Statements

These financial statements have been prepared to comply with Accounting Principles Generally accepted in India (Indian GAAP), the Accounting Standards notified under the relevant provisions of the Companies Act 2013.

The financial statements are prepared on accrual basis under the historical cost convention.

B. Use of Estimates

The preparation of financial statements in conformity with Indian GAAP requires judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognised in the period in which the results are known/materialised.

C. Revenue recognition

Revenue is recognised only when risks and rewards incidental to ownership are transferred to the customer, it can be reliably measured and it is reasonable to expect ultimate collection. Other income includes sale of services.

D. Investments

Long-term investments are stated at cost. Provision for diminution in the value of long-term investments is made only if such a decline is other than temporary.

E. Income Taxes

Tax expense comprises of current tax and deferred tax. Current tax is measured at the amount expected to be paid to the tax authorities, using the applicable tax rates. Deferred income tax reflect the current period timing differences between taxable income and accounting income for the period and reversal of timing differences of earlier years/period. Deferred tax assets are recognised only to the extent that there is a reasonable certainty that sufficient future income will be available/ except that deferred tax assets, in case there are losses, they are recognised if there is virtual certainty that sufficient future taxable income will be available to realise the same.

F. Provisions, Contingent Liabilities and Contingent Assets

Provision is recognised in the accounts when there is a present obligation as a result of past event(s) and it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate can be made. Provisions are not discounted to their present value and are determined based on the best estimate required to settle the obligation at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates.

Contingent liabilities are disclosed unless the possibility of outflow of resources is remote.

Contingent assets are neither recognised nor disclosed in the financial statements.
